WORK EXPERIENCE

01/11/2021 – CURRENT İstanbul, Türkiye
FRONT END WEB DEVELOPER SOLID-ICT

- I develop projects from scratch and contribute to existing ones using React, Redux and TypeScript.
- My focus is creating scalable and maintainable applications by leveraging these technologies.
- I work on implementing new features and optimizing existing ones to enhance the performance of the application.
- My experience with React, Redux and TypeScript has equipped me with the skills to effectively contribute to the projects I work on.
- I have also contributed to Angular and MobX projects, albeit to a lesser extent.

28/05/2021 – 16/08/2021 İstanbul , Türkiye
INTERN WEB DEVELOPER BUKYTALK

- As an intern at Bukytalk, I worked with PHP to develop backend code for template websites.
- Through my work at Bukytalk, I was able to gain a deeper understanding of PHP and how to use it to develop scalable and efficient web applications.
- I gained experience working on web projects and collaborating with other developers on a team.
